I'm a Full Stack Developer specialized in building robust, modern web systems for the public sector. I'm passionate about clean code, modular architecture, and mastering technologies like Angular, Astro, and Laravel to solve complex problems efficiently.

EXPERIENCE

Non-SAP Programmer
Feb 2025 — Present

Ministry of Finance, Investment and Administration · Guanajuato, Mexico

- Build complete web systems with a frontend focus using Angular 17+ with Signals and Astro.
- Implement OAuth authentication, REST API consumption, and modular architectures.
- Design responsive interfaces with Tailwind CSS and NgZorro.

Tech Support / Full Stack Developer
Sep 2023 — Jan 2025

Ministry of Social and Human Development · Guanajuato, Mexico

- Built a vehicle assignment system from scratch using Laravel, Livewire, and Alpine.js.
- Maintained and evolved legacy systems in PHP 5 and Laravel 7.
- Developed custom WordPress modules and MySQL integrations.

IT Specialist
Nov 2021 — Sep 2023

Schnellecke Logistics · Guanajuato, Mexico

- Managed users, networks, and services via Active Directory.
- Provided technical support and infrastructure maintenance across 7 national sites.
- Performed database queries and management in SQL Server.

<> FEATURED PROJECTS

QR Code Generator

Interactive web app to generate and customize QR codes with theme persistence and HTML5 canvas download.

Astro · TypeScript · Tailwind CSS

Institutional Admin System

Multi-module platform for public institutions: inventory and stationery control, role-based user management, real-time metric dashboards, and PDF/Excel report generation.

Angular 17+ · TypeScript · Firebase · NgZorro · Tailwind CSS

Procuraduría Fiscal al Día ↗ Demo

Newsletter subscription platform with OAuth admin login, user roles, charts, and Google Analytics tracking.

Angular · TypeScript · Firebase

The Simpsons Archive

Simpsons character explorer consuming the official API with Zod data validation and a dark fan-site design.

Astro · TypeScript · Zod · Tailwind CSS

Ticket System — Holiday Inn

Ticket management dashboard with control panel, real-time metrics, weekly trend charts, and user management.

Angular 17+ · TypeScript · NgZorro · Firebase
